Hi Mark,

As you know, the application deadlines for graduate fellowships are fast approaching! The early fall deadlines sometimes catch students off guard -- I'm hoping you will be able to share our information with any undergraduates considering graduate school, as well as any current graduate students in STEM.

**GRADUATE FELLOWSHIPS**

We have 29 fellowships in our database for masters level students and 32 fellowships for doctoral level students. This includes NSF, NASA, NIH, and more! More information and tips on applying can be found here:

[https://pathwaystoscience.org/Grad.aspx](https://pathwaystoscience.org/Grad.aspx)

Our advanced search is also a great tool to filter programs by upcoming deadline:

**POSTDOC POSITIONS**

Finally, we also have 25 different postdoc positions in our database with upcoming deadlines:

[https://pathwaystoscience.org/Postdocs_Portal.aspx](https://pathwaystoscience.org/Postdocs_Portal.aspx)

I hope this information is helpful to students. Please let your students know that they should feel free to contact me if they need help using our database to find programs.

Thanks so much,

Liv

Liv Detrick, Senior Advisor
The Institute for Broadening Participation (IBP)

The mission of the Institute for Broadening Participation is to increase diversity in the Science, Technology, Engineering and Mathematics (STEM) workforce. We design and implement strategies to increase access to STEM education, funding, and careers, with special emphasis on reaching and supporting individuals from underserved communities and underrepresented groups, including underrepresented minorities, women, persons with disabilities, first generation college students, and students from underserved communities. The Institute for Broadening Participation is a 501(c)(3) organization, tax ID #20-1891162. Your contribution is tax-deductible to the extent allowed by law.
