Term Project Presentation

(100 points)

Due Date: 3PM Wednesday December 18, 2013

Educational Goal

Become familiar technical presentation.

Requirements

- Prepare PowerPoint slides for a 20-minute presentation to demonstrate the functions that you have implemented, and the major challenges you have experienced in this term project. Be prepared to explain how the functions are implemented at code level (you may be asked to show the correspondent source codes during the presentation!).
- Each team member must participate and present during the 20-minute presentation.
- Provide the instructor and the TA the paper copies (2 copies in total) of your PPT slides before your presentation.
- You should also discuss your experiences learned and lessons gained in this project.
- Write a readme file to briefly explain all the scripts you have done in the project from phase 1 to phase 4 and submit all the scripts you have done.

Submission Requirements

1. One submission per team.
2. Submit a single zipped file of all the files of your project from Phase 1 to Phase 4.
3. Name your file with AI_ lastname_firstname_team#_final. For example, team 1 should name their file as AI_team1_final.zip.
4. No hard copies or soft copies results in 0 points.
