

Homework Assignment 4

(50 points)

Assigned Date: Monday, February 23, 2009

Due Date: 7:00 PM Monday, March 9, 2009

Educational Goal

Become familiar with VBA applications.

Requirements

- Finish all the exercises provided in Chapters 7, 8, 9, 10, 11, 14, 15 of the book “Getting to know ArcObjects.”
- Create a *homework folder* named as *firstname_lastname_hw4*, place all your .mxd files directly under the homework folder, and do not use any subfolders inside the homework folder. The ArcObjects folder provided by the text book should be located in the same parent folder as the homework folder. For example, student John Smith should place all the .mxd files under *john_smith_hw4* folder, refer the location of the ArcObjects in the figure below:

Submission Requirements

1. Save each exercise with prefix “my_” before the file name. For example, you should save your results with “ex04a.mxd” as “my_ex04a.mxd.”
2. Zip all the files into one ZIP file and submit the softcopy through your UMassOnline account at <http://boston.umassonline.net/index.cfm>.
3. Name your file with *sdm_lastname_firstname_hw4*. For example, student John Smith should name his file as *sdm_Smith_John_hw4.zip*.
4. Only softcopies are required for this assignment.
