

# Electricity Bills

## How to read your electricity bill

### Tamworth Electricity

Previous meter reading	5 6 4 7 2
Present meter reading	5 6 9 4 3

Number of units used	4 7 1
----------------------	-------

Cost per unit (pence)	7.35
-----------------------	------

Cost of electricity used	£ 34.62
--------------------------	---------

Fixed quarterly charge	£ 9.49
------------------------	--------

<b>Total Bill</b>	<b>£ 44.11</b>
-------------------	----------------

This shows the number of units used. This is the same as kWh.

Present reading - previous reading

Number of units x cost per unit.

Cost of electricity + fixed charge
