

# ABOUT BEEHIVE – Keertan Patel

## About BeeHive

### Our Mission

Our mission is to spread the joy of the [Bee Movie](#) and the importance of bees to the world.

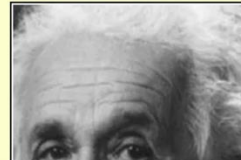

### Who We Are

Founded by passionate students of CS410 at UMass-Boston, BeeHive is a community-driven initiative focused on empowering learners and creators in the tech space. Just like bees work hard to pollinate flowers and give us honey, we strive to cultivate joy about the Bee Movie.

### Importance of Bees

Bees play a crucial role in our ecosystem by pollinating plants, which helps produce the food we eat. They are essential for biodiversity and the health of our environment. By promoting awareness about bees and their importance, we hope to inspire others to appreciate and protect these incredible creatures. The Bee Movie serves as a fun and engaging way to highlight the significance of bees in our world.

If the bee disappeared off the face of the earth, man would only have four years left to live. This is regarded as probably NOT a quote

# Location of Artifacts

- My main artifact is located on the github on the following path  
BeeHive/about.html
- My about.html has dependent images which are located at  
BeeHive/images/Bee\_Movie\_(2007\_animated\_feature\_film).jpg and  
BeeHive/images/quote-if-the-bee-disappeared-off-the-face-of-the-earth-man-would-only-have-four-years-left-albert-einstein-123-24-01.webp
- My simlink is located at  
BeeHive/simlink/info\_3297.txt

# Updated info\_nnnn.txt

- 1. Last Four Digits of Student ID: 3297
- 2. First Name and Last Name: Keertan P
- 3. Skills
  - Java,
  - Python - Financial Analysis using Plotly, Seaborn, Pandas
  - C
  - HTML – Learned in classproj2
  - CSS – Learned in classproj2
  - github – Learned in classproj2
- 4. Preferred Roles:
  - Quantitative Finance,
  - Model Validation Analyst,
  - Data Scientist
