My Credentials

My Apple Contributions

1. The Header tab button that sets you on the page where you can locate my credentials.
2. The buttons using template the team had decided that directs you to my info_1069.txt and personal website.
3. The Background is a basic code of a fireworks scene that I adapted to my personal website.

Info file

Personal Website

Artifacts

Their 3 main sections we had for artifacts:

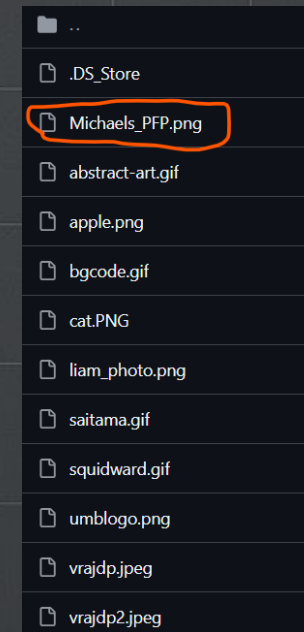

1. The first artifacts section contains a product backlog and 2 of my teammates personal additional artifacts.
2. The next is a list of "assets" we added which includes stuff like gif, pictures, etc... (my profile pic circled in orange)
3. Lastly was our "symlinks" directory, which contains what was our info_nnnn.txt. (my info circled in blue)

Link for folders: [umb-410-apple/Apple](https://umb-410-apple.com)

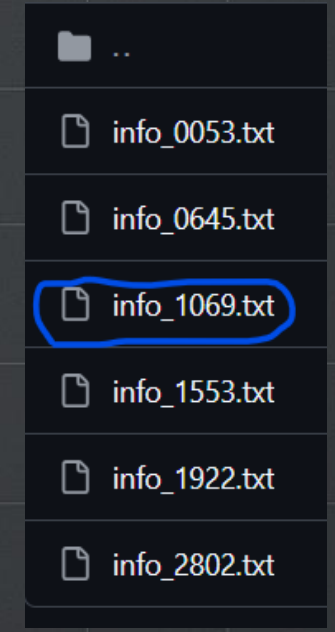

artifacts	update artifacts and README
assets	linked my Personal Website
css	finish up the about page and add an mouse event
symlinks	Merge pull request #29 from umb-410-apple/vraj23
