

# March 11

## Team Digital Signage (Syed, Nhu, Anika, Mridhul)

The screenshot shows the GitHub repository for 'cs410-digital-signage'. The repository is a Spring Boot application for the Digital Signage project. The backend directory structure is as follows:

- main
- backend
  - src
    - env.example
    - gitignore
    - README.md
    - mvnw
    - mvnw.cmd
    - pom.xml
  - frontend
    - gitignore
    - README.md

The README.md file contains the following text:

```
Backend — Spring Boot application for the Digital Signage project
```

I am currently discussing feature ideas and beginning to work on the login page.
