# Ramsa O. – Group B8 – Explore Minnie

- The project involves documentation for the Minnie server, assest stored in server

- We look to use the bash shell for User interfacing

- Research paper will be about; Local LLM inferencing

- Our website will be the user friendly version of the docum

  - *Contributions:*

    - *Creation of landing page for website*

    - *Network topology decisions*

    Working to get admin access for Minnie project members

Working code template;

```
<body>
    <div class="heading">
        <h1>This is the Team B8</h1>
    </div>
    <div class="body">
        <h3>This is a <a href="https://link-to-the-docs.com">link</a> to the project requirements</h3>

    </div>
</body>
```
