

## 01. Main Contributions

# User Posting Platform

Team: T1-UP

- **Designed & built main UI/UX** for both moderator panel and user flow, including the reason posting page.
- **Implemented features:** session storage for saved data, 7 day question auto expiry with status labels.
- **Developed the Frutiger Aero/Windows XP theme** (custom backgrounds, window style cards, floating decorations) for all pages.

S k i l l s

## CSS Layout & Responsive Design

Styled consistent, responsive pages with custom backgrounds, cards and floating decorations.

## Additional Comments

### 01. Main takeaway

- Builds complete web projects from design to final product.
- Balances creative design with stable, working functions.
- Strengthens teamwork and clear technical communication.
- Practices clean code and bug fixing for reliable performance.
- Plans features to meet user needs effectively.
