

- **My focuses for the long project:**
 - ❖ Home Page UI
 - ❖ Profile Page UI
 - ❖ Support button
- **code on github in team organization (files)**
 - [App.js](#)
 - [HomeScreen.js](#)
 - [ProfileScreen.js](#)
- **To view demo of our app:**
 1. clone the repository
 2. run npm install (once) in terminal
 3. run npm start in terminal
 4. Scan QR code from terminal
 5. This will take you to “Expo Go” app (if downloaded) and open the demo

- **artifacts in GROUP2 on server/in course dir**
 - `/courses/cs410/s26/hdeblois/GROUP2/longproj02/t5/alexArtif`

- T-shaped skills, as they have evolved
 - ❖ Broad skills
 - Creating an app using React Native
 - Working with Git
 - ❖ Deep skills
 - Creating and breaking down requirements

- Link to nnnn.txt, initial comments
 - ❖ <https://www.cs.umb.edu/~alexav15/3596.txt>

- Additional comments or plans
 - ❖ Changing colors around to make it more calming, warmer
 - ❖ Support page - linking it to an email

- Link to rpaper.pdf
