

## Long Project Work

### My Contribution: Tutorials Page

Built a comprehensive SSH tutorial page for the team website with:

- Step-by-step SSH connection screenshots from PowerShell
- Basic Linux commands guide (pwd, ls, cd, cat, mkdir, whoami)
- Quick reference command cheat sheet table (10 commands)
- Troubleshooting section for 5 common SSH errors
- Pro Tips: keyboard shortcuts and command history

### Code (GitHub Team Organization)

<https://github.com/b7cstour/LongProject1/blob/main/Tutorials.html>

### Artifacts (Course Directory on CS Server)

Located at: /home/krishna/cs410/ (R18.txt, R21.txt, R22.txt, R23.txt, R25.txt, R26.txt)

### Deployed Site

<https://b7cstour.github.io/LongProject1/Tutorials.html>

# T-Shaped Skills

How My Skills Have Evolved

## BROAD SKILLS (Collaboration & Soft Skills)

Problem Solving | Project Management | Communication | Teamwork

## DEEP SKILLS (Technical Specialty)

Python

Java

HTML

CSS

*(grew through long  
project work)*

## My Initial Slide (1978.png)

Located on CS Server at: </home/krishna/cs410/1978.png>

## Future Plans for the Tutorials Page

### Plans to add more tutorial sections after class ends:

- Add nano/vim text editor tutorial
- Add file transfer (scp) detailed walkthrough
- Add file permissions section (chmod) with examples
- Add video tutorials demonstrating live SSH sessions
- Add a section on managing processes (top, ps, kill)
- Continue updating with new commands as students request them

## Research Paper

### Topic: "Can AI Replace Doctors?"

5-8 page research paper exploring the potential of AI in healthcare and medicine

Located on CS Server at: `/home/krishna/cs410/rpaper.pdf`

**Thank You!**
