Artifacts link: /home/muhammad/cs410/Artifacts/

- Designed and built the homepage layout for the CS website Tour
- Added and integrated images in the homepage for the CS website Tour.
- Created History tab documenting key changes and transitions in the UMass Boston CS department

T-Shaped Skills

- Broad: General web development awareness, understanding user navigation, content organization team collaboration in a shared codebase
- Deep: HTML, page layout, content structuring, integrating images building multi-tab navigation

How it evolved: Started with basic HTML knowledge, deepened through building real pages with consistent structure and team coordination.
