Team 4 - Green Thumb

The screenshot shows a web application interface for 'Product Reviews'. At the top, there is a navigation bar with links for 'Home', 'Shopping Cart', 'Shop', 'Checkout', 'About', and 'Reviews'. Below the navigation bar, there is a green header with the text '✓ DOING YOUR RESEARCH' and 'Product Reviews' in a large font, followed by 'Feedback from other buyers'. The main content area features a 'Write a Review' form with a 'PRODUCT NAME' input field, a 'RATING' section with five stars, and a 'YOUR REVIEW' text area with the placeholder text 'What did you think?'. A green 'Post Review' button is located at the bottom of the form. Below the form, there is a section titled 'All Reviews' with a notification icon. A single review is displayed, showing the name 'test', the date 'April 30, 2026', and a rating of five stars.

Key points about my work on the project:

- Customer reviews page
- Styling
- Navigation bar
- Storage and loading of reviews
- Still in progress: dropdown list of products

T-shaped skills

Broad skills

- Working in a shared repository
- Communication with others on a team project
- Working with others to integrate our individual parts together

Deep skills

- HTML
 - Back-end work on a website
-

Plans

- Continue work on dynamically pulling specific product names and IDs to create a more precise review process
 - Implement a more direct connection to reviews from the product page
 - Link to rpaper:
