

TEAM B7 - CS WEBSITE TOUR

KEY POINTS:-

- Designed and implemented the overall visual layout of the website, ensuring a clean and consistent look across all pages.
- Ensured all information on the site is well aligned and centered.
- Built and structured the site navigation, making it intuitive and easy for users to move between sections.

ADDITIONAL COMMENTS.

IMPROVEMENTS.

- Add a search bar to make it easy when looking for information.
- Add a CS portal login.
- Optimize the site for mobile use as well.

PLANS MOVING FORWARD.

- Talk to the client about deployment and more about requirements.
