Possible topics for discussion

- Read and discuss a scientific article.

- Big brother is watching you – security and privacy between the NSA, google and facebook.

- Where is the other half? Why are women (and some minorities) so underrepresented in CS and math?

- The Turing test – can we truly distinguish a human from a machine?

- Computer games – so much more than just playing.

- The internet (but seriously) – structure, protocols etc.

- Computer science at the service of Biology and Medicine – databases, drug design etc.

- The bionic arm – how robotics can help in making prosthetics that behave like natural body parts?

- The open source initiative.
