Hi, My name is Yinxin Wan and I will join the Department of Computer Science at UMass Boston as a tenure-track assistant professor in Fall 2023. My current research interests include cybersecurity, IoT, network measurement, data-driven networked systems, and AI/ML. I am looking for highly motivated Ph.D. students to join my group with full financial support. If you are interested, please send an email to Yinxin.Wan[AT]umb[dot]edu with your CV attached.

8. Admission: [https://www.cs.umb.edu/admissions](https://www.cs.umb.edu/admissions)

   Deadline: October 1st, 2023 (2024 Spring); May 1st, 2024 (2024 Fall);

   Requirements: IELTS: 6.0 or TOEFL: 79+; and GRE: 155+ in Quantitative Reasoning

9. Campus: UMass Boston (University of Massachusetts Boston) is one of the five campuses in the UMass system. It is the only public research university in Boston. Its scenic waterfront campus is situated on a peninsula known as Columbia Point, which extends into Boston Harbor. The John F. Kennedy Presidential Library and Museum is located just next to it. The campus is approximately 3 miles southeast of downtown Boston and is easily accessible by public transportation, including bus and subway lines.
